

year what?

My name is Josiephine Zhou and I am currently in **year** attending Haberfield Public School School (Year 5 next year at Summer Hill Public School OC). I am a diligent student who strives to surpass the expectations of others, striving to achieve my very best in all activities that I participate in.

Sports is an activity that everyone partakes in daily. For me, this is seen not only through running with my peers, but also a multitude of team and individual sports. From netball and touch, to swimming and cross country, sports are an integral part of my school life. In my free time, I also play badminton and cycle with my siblings. My favourite sport, however, is basketball. I love how it gives you a chance to collaborate with your team and work together.

Ever since kindergarten, I have thoroughly enjoyed music. I have been learning piano for 5 years and although I do not participate in examinations, I love playing for leisure, especially when I am burdened by the pressure of other activities. Furthermore, I was selected to perform at the Sydney Opera House for recorder, the Town Hall for Primary Proms and am in the school intermediate band.

Unlike many other people, I am bilingual as I speak both Chinese and English fluently. I started taking Chinese lessons before kindergarten and speak this language with my family and a daily-basis. Moreover, I was awarded 2nd place in the Hello Mandarin Recitation Competition and was also awarded the Outstanding Achievement Chinese award for my enthusiasm, commitment, and performance in Chinese.

Additionally, I received an A in my IMEB and drama exam for both year 3 and 4, and recited in the City of Parramatta Eisteddfod. I also greatly treasure and take part in the extracurricular activities that my school provides, such as chess clubs and Math Olympiad.

Quite a hanging ending, try to add a sentence or two the gives a good long lasting impression

Nice piece you got there! I am quite impressed on how much you managed to achieve at such a young age. You managed to elaborately explain each talents you have honed however, you did not end your piece with a proper ending. Although it is just a minor error, it is best to correct it no matter how small it may be. Other than hobbies, talents and achievements, why not also mention your traits, your good qualities and values? Nevertheless, this is still a top on work great job!

Mark (50/50)
