

My name is Bella, and I am currently in year 4 at Matthew Pearce Public School. I am a hard-working, dedicated student who always thrives on large challenges and hard tasks. I am also very diligent worker, and I always strive to use my personal strengths such as my patience, perseverance and leadership throughout my school years. My hobbies are reading, drawing, cooking and climbing. I love to play netball and touch footy. I am always willing to take on a challenge versing my friends in netball at school. This year, I have been selected as part of the PSSA school Netball team for Winter and the PSSA touch footy team for Summer. For my PSSA Netball group, we have been in the semi-finals against Samael Gilbert Public School, but unfortunately, we lost. It was still a good game. I have also been in the school swimming carnival for all four strokes and even got through to the State Championships! When I grow up, I want to become a veterinarian because I love working with animals and I want to help them if they are injured. I even have a dog myself! I would love to participate in more advanced carnivals and challenge myself on anything. I believe that being a vet is a crucial job in saving many animals from extinction. Without animals, our earth would just not be the same. I have a few quotes that motivate me each day and help me be a better person. They are "Our greatest weakness lies in giving up. The most certain way to succeed is always to try just one more time." By Thomas Edison. "Courage doesn't always roar. Sometimes courage is the quiet voice at the end of the day, saying I will try again tomorrow." By Mary Anne Radmacher. "When the world is silent, even one voice becomes powerful." By Malala Yousafzai. Don't just merely mention quotes, also give a reflection about how this impacts you.

can you elaborate more on this please

Nice piece! I really like the flow of your ideas and you managed to give out a sufficient amount of information about yourself. Despite all, you still need to work on a few things: first off, you must elaborate more on an idea that you pointed out and don't just jump directly from one thought to another. Add a good transitioning statement in between. Other than that, look out for capitalisation as well as the highlighted part at the end of your work. Please do take note on the suggestions to further improve your work.
