

My name is Vinal Liyanage and I am currently attending John Palmer Public School, in Blacktown, New South Wales. I have hobbies for soccer, piano, biking, playing with my family, and hanging out with my friends. I have one brother named Senal. I am kind and I have determination for nearly everything I do. If I start something I will always try to finish it. I take piano classes every week and I play academy level soccer for Ponds ASA. When I am bored I often find different things to do. The main thing I do is go into my room and play music or I read my book. I love reading books as it helps my brain process when it is jammed. I also use it when I am stressed and I forget my problem. I also love rugby and AFL. I love to play kicks and passes with my brother and we like to grab our whistle and blow it like a referee. I love the outdoors because it helps me get a lot of fresh air and me and my brother use equipment we have in my backyard and we make obstacle courses. I also love to watch electronics. I also am a specialist at athletics going to state for shot put and never missing out on regionals. I love the 400 metre, 200 metre and hurdles. I am a hardworking student who loves all subjects especially History, Geography and Science. I am a SRC this year. My favourite animal is a dinosaur. When I get older I plan on being a sports star (I don't know what sport or event yet), a palaeontologist or an architect. I like architect because I get to design stuff which I am very good at doing.

Alright slow down there! There's a lot of things going on in this paragraph and a lot of ideas are rushed and fragmented.

Part 2-Why are you a good fit for The Hills Sports High School
their motto reads: "insert motto here".

I think I am a good fit THSHS because there motto reads, Strive for Success and the only way I can do that is by going to The Hills Sports High School. In the Hills Sports School, I can learn everything I need to learn about sport, so that I can fulfill my life long dream of becoming a sporting hero for Australia. Hills Sports have shown that they are one of the best schools in Sydney West as they have a plethora of professional athletes, some of them I have met, some of them I meet regularly, and also looked up to, as I want to become one of them. Because of this, I can trust that THSHS is a good school for my sporting dreams. With academics, the Hills Sports School is a very good school, having a lot of Band 9 and 10 in naplan. I want to continue this and also represent THSHS in academic as well as sport. Also, from the website it shows subjects that a lot of other schools will not have and I want to take advantage of more subjects, and make a business run in be me because more subjects lead to more opportunities. This wonderful school also includes many complex challenges than basic schools like The Ponds High School, or Glenwood High School. This school would boost my education and my sporting to the highest level which is why The Hills Sports High School is my dream high school.

Interesting work! I do get the ideas that you are trying to come out with but I think you should slow down a bit and deal with each subject slowly one by one. DO NOT jump from one idea to another without explaining why. In the first paragraph, it was a bit too rushed and avoid starting your sentences with "I" too often as it may be too redundant. Besides that, in your second paragraph, you can make this more convincing by mentioning the contributions THAT YOU COULD PROVIDE in the school. Make it seem like it is a good thing for them that you are applying for their school, judging from all of your unique skills and attributes.
