

320/300 words.

Introduce yourself at the very first sentence. Good morning, my name's Ella!

~~Tell me about yourself (btw this is Ella)~~

During my lifespan (of only 10 years) I have found many different interests and qualities that I have. My hobbies include art, badminton, tennis, dance, piano, flute, robotics, reading and writing. Of all, I really enjoy visual arts as it lets me use my imagination and creativity in new and interesting ways. I also like puzzles such as sudoku, wordles and puzzles. I am Ella Hou in the year five ^{OC} ~~OC~~ class at Ashfield public school. It has been a wonderful experience but when I move on to a different school, it's better to have a goal to try and achieve. My goal is to get a scholarship for ^{PLC} ~~PLC~~. My sister thrives there and I believe I will too.

All my school teachers have said that I was a kind student. I am willing to help out anybody in need. My teacher was once afraid that I was too nice and others would take advantage of me. I'm not sure if that's a good thing. I've never hesitated to help a friend or donate \$20 to charities. I have always known how to conquer obstacles with optimism and finish what I start. I will always try my hardest and will solve the problems with honesty and integrity.

I want to make discoveries and explore the wild. This is why I want to be a biologist. To be completely honest, any type of scientist is okay with me ^{comma} but I like to see living organisms in their natural habitats. During class ^{comma} I enjoy research tasks about plants and animals and I find great pleasure in learning about how human brains work. I ask questions when needed and I strongly believe that parents, carers and teachers will not clear all the obstacles that you will meet during your road of life, you will have to do it yourself. Otherwise, how will you learn?

Note:

This is good self introduction, Ella! However, there areas that you need to improve. For starters, when you said that you don't know that being too kind is a bad thing. You should think about it, because when you say that you are doubtful, the listeners will get a feeling that you cannot do a self evaluation. A person who is too nice may never be truly known or taken seriously. Their preferences may be overruled, and they may be ignored. It may even have an effect on your new friends. Because you never stand for anything, being overly accommodating might make you appear invisible. You may say instead, that I am trying to evaluate the feedbacks of my teachers. Lastly, use commas to make the flow of your essay more naturally.
