

Tell me about yourself:

My name is Aidan and I am nine years old. I currently attend a Year 5 OC class. However, I am younger than my friends, as I sat for the OC exam early and skipped Year 4. At first, it was quite challenging to fit in as I missed my friends and everyone was older and taller than me. However, after a few weeks I adapted and made many good friends, so overall I enjoyed this year at school. I found the schoolwork this year to be more fast paced and engaging, and I have enjoyed the challenge.

I have many hobbies such as playing sports like tennis and table tennis, and spend most days of the week involved in sports activities. Right now my UTR (universal tennis ranking) is around 3.15. I am striving to be a UTR greater than 4 by the end of next year. I am also trying to get into the state team for table tennis. For sporting achievements, I have made it into regionals for cross-country running and the 800 metre race. I play PSSA (softball) for my school, and regularly participate in tennis and table tennis tournaments on the weekends

I am currently doing grade 7 in piano and grade 4 in drums. One day I would like to go busking and earn some money from music. I enjoy playing games during my breaks, and also like reading books in my spare time. My favourite book is Percy Jackson by Rick Riordan. It is a very interesting book, mixing fantasy and the history of Greek mythology together. I like travelling and my favourite place to go to is Japan. I also love coding, and I have gotten the opportunity to go to a quantum computer lab once as I won a coding competition.

Why are you fit for your dream school:

I would like to apply for The Kings School or Newington. I believe that I can benefit these schools if I am accepted because I can contribute to their academic performance. ^{Also,} the private schools have a strong reputation for teaching and have a more flexible curriculum than public schools, and I would be able to undertake my learning pathway at a pace that I can engage with.

These schools also have strong tennis teams, and I would be able to represent the school in these sporting endeavours. I enjoy many sports and have performed well in different sports, and I would appreciate the opportunity to further develop my sporting interests, and hopefully I can represent the school in these other interests as well, including cross country and running. I would also like to participate in a school band, and contribute in school performances, and this will also foster my enjoyment for music. I will strive to be a good classmate and role model for other students. This is why I am a good candidate for these private schools.

Excellent job! The way you deliver your ideas per paragraph is splendid and it truly meets the criteria stipulated in the instructions. Your flow from one thought to another is good, and I also like how you also made it convincing on as to why you are worthy enough to be accepted to your school of choosing. Please do make more pieces with this kind of quality.

Mark (50/50)
