

Tell me why you are a good fit for your dream private school (300 words)

My name is Riley Thurman. I am an assiduous learner, engaged, passionate in ways to improve the sustainability, an effective team player, with abundance of curiosity and keenness to be involved in an extensive variety of co-curricular activities. I am a promising young chess player presently hand-selected by Sydney Academy of Chess to join the NSW Elite Chess training program.

The Sydney Grammar school's academic extension programme allows boys to pursue special interests beyond syllabuses in many subjects. The school take the view that broadening and deepening a boy's understanding of a subject, through personal contact with a teacher who is an authority in the field, is preferable to acceleration through the curriculum.

Some of the academic extension programme that peak my interest are:

Arts programme to enable me to acquire a technical competence in skills such as drawing, perspective and composition

Music programme to aid in my journey to be a better guitar player, to master another musical instrument or two and have opportunities to perform both in small ensembles and larger orchestras.

Sport programme comprise of summer and winter sports: cricket, rugby, football, tennis games, gymnastics, basketball, volleyball, rifle shooting, rowing and fencing.

Debating, chess, creative writing, ceramics and fly-fishing

broken sentence, merge this

and many more that i may not discovered as yet.

Other clubs and activities on offer that i am keen to be involved in are:

Maths Society which is a before school club interested in exploring some of the fascinating branches of Mathematics with a fascination with numbers, an interest in puzzles, a passion for the history of great thinkers and a natural curiosity.

The Informatics Club is open to all boys who has enthusiasm in various programming languages. Currently the Club is programming in Python and C++..

project your focus on how YOU are a best fit for the school and not the school PER SE.

The Environment Club is a group dedicated to improving the sustainability of the School through initiatives such as recycling program.

and there are myriad of activities that I may not be aware of but would love to take part in them.

I hope Sydney Grammar school will find me to be a good fit to represent what the school stands for and will be a place that nurture my individual talents.

You started off really great and impressive as you mentioned most of your good skills that could be a good quality for the school. However, as your writing progresses, it became a bit too off from the main topic itself. Do not add any unnecessary information unless it is about yourself and how much of a competent student you are for that school. There are also broken sentences and you also have to fix that. This work has good potential so please keep aiming high!

Mark (46/50)
