

part 2

I believe I can contribute to Abbotsleigh, my dream school. I recently moved to Sydney, an experience which really opened my eyes. Now I know what it feels like to be the "new kid", I can help others adjust to the new environment, especially students who don't understand what's happening. I'm really excited to be a buddy in February! At my old school, I was the English Monitor where you help the teacher, explain material and organise activities and homework for three years running. This role has not only allowed me to help out my fellow peers, but learn planning, organising and time management skills. Next year I'm thrilled for the Leadership camp and field trip at my school, where I'm sure I'll have loads of fun! I can confidently speak in front of an audience, after being in the quarterfinals of Public Speaking, where I not only had a chance to practise oral presentation, but writing, voice projection and so much more! I also learnt careful planning and injecting humour in my speech. At home and with friends, I often take up the leadership role and find fun and interactive activities appropriate according to their hobbies, like a showcase for the parents. I hope I can be a valuable asset to Abbotsleigh and to take up more leadership roles next year!

How? Explain further.

which that*

that

Move the comma before the double quotation mark.

Add a comma

Remove the comma

Add a comma

Add a comma

Do not capitalise.

Remove the comma.

Remove the comma.

also*

Add a comma.

about

into*

es

Note:

Good work in providing a detailed output that highlights your skills and achievements. Surely, this enhances your personal portfolio. However, it would be appreciated if you provided information, such as personal experiences and learning, as well as how these may contribute to your future school. These points are often taken into consideration when writing applications and such. There are also grammatical and punctuation mistakes in your work.

Please take notice of the aforementioned adjustments.
