

How can you contribute to your dream private school? Have you taken part in any leadership roles?

I can contribute to King's in many ways. My leadership and persistence can help King's rise above all the other private schools. My persistence will lead me to make whatever I do the best and with my academic skills, I can also help other students with their work if they are feeling a bit overwhelmed by the workload. This means the teachers and staff don't have to worry so much about the child. Then, the teachers can focus more on teaching everyone, not focusing too much on the people who are lagging behind. Due to this, everyone can learn more, bringing all the students to a better life career. Recently, at my school, I was elected as a sports captain, after going through many preparations, including writing the speech, practising it, and finally, saying it in front of the entire school. My leadership skills can bring King's forward, higher, where it deserves to be. I can lead the school to victory with my brilliant leadership. I hope that at King's I can enter the leadership team during my time here.

Note:

I love that you provided all of the specifics to highlight your abilities and accomplishments. However, there are grammatical errors as well. Please take notice of the aforementioned adjustments. It would also be very appreciated if you could provide information such as your personal experiences and learnings, as well as how these may assist your school. These factors are frequently considered while preparing school applications.

MARK (46/50)

Use either "higher" or "forward," but not both.
