

Part 2 – Jayden Kok

How can you contribute to your dream private school? Have you taken part in any leadership roles?

I can contribute to one of the top Christian private schools in many ways. I have a caring and responsible character and love to help teachers with things they need. After class, I usually straighten the books in the classroom and tuck in all the untucked chairs. I can also share about my faith, which has great values like the fruit of the spirit. I also love helping others when I know something, and someone else does not understand.

In the previous summer season, I led my basketball team to a victorious season by fostering good teamwork.

I dream of coming to one of the top Christian private schools and would love to share anything good I have learnt.

That's great that you love to help others and have great core character values. But you can do better with this response.\

As you stated that 'basketball team to a victorious season by fostering good teamwork' elaborate on it that what leadership skills you implemented, and how your communication, enthusiasm and flexibility help you lead the teams.

You must add weightage to your response by utilising your skills, and character traits conspicuously.

You need to provide a concise yet detailed response that exhibits your confidence and conviction.

Hope this helps, keep up the great work!
