

Pt2: Aidan

I believe that I can contribute to my dream private school in **many different various/ several** ways. Firstly, I am a great leader and can be a student representative council leader as I bring many different ideas and **skills** to the table. Also, I am a great person at sports so I could be a house captain or represent our school **for in** tennis or table tennis. I am also interested in many other activities, I am great at public speaking and I could join the debating team too. Finally, I am very friendly and having me in the school would allow students to make **a** new **friends** when they are lonely.

You may work on this piece by defining your qualities and achievements you have got. Exhibit your potential and knowledge about what it takes to be a leader. Mention your skills, and how you can employ those talents/ skills to add value to that particular school. Discuss what and how you can contribute to that particular institute.

. You may add a few insights about the skills you utilise to be more productive as a leader or how you implement your strategic thinking, integrity, communication and delegation being a leader/ coach of the teams. This kind of insight will add substance to your response and will exhibit your understanding of what it demands to be a leader

. Hope you find this feedback constructive. Keep up the hard work!
