

PART 2

If I am selected for a scholarship, I will represent MLC with pride as a conscientious and motivated student. I truly believe what makes me an outstanding candidate for this school is my optimism, open-mindedness and constant desire to grow into a better person. I feel that I will also benefit the performing arts program and academic program, by contributing well towards both. Why do you say so? do you have a background? if so, specify

give out scenarios or anecdotes that will prove that you practice these qualities

I will also give back to the school community. As I have been SRC for 3 years in a row, I will make sure that I will push myself to improve the school's community. I will also encourage myself to be the best student that I can, and do my best in my studies, to try and improve wherever I can so I can be a good representative of the school. What about leadership roles? have you taken any in the past?

what does SRC stand for? spell it out

It is important to note that when answering a question, you have to justify it adequately. and by that I mean, giving out examples, evidence, scenarios, etc. Because it is only through your experiences that people can judge your character as a student. Who knows if you're really optimistic and open-minded. You could just be making that up. That's why you have to back it up with more information. As for the second question regarding leadership roles, you weren't able to address this bit. So, next time, please be mindful.
