

### Question 1:

I have always been an academically strong student, and a helpful, kind friend. I am empathetic and respectful with a wide range of interests. I am willing to expand my knowledge at this school and will try my best to succeed and achieve.

I try my best in every subject and strive to achieve the goals that I have set for myself. All my teachers have said I was a fast learner and a bright student. I passed the OC examination and got top 10% for Math Olympiad and 93 for AMC. At my previous school, I was also elected to represent my class in public speaking back in year 2.

I am a respectful and sensible student. I love to help people, whether I know them or not. My year five teacher even said that I was kind of like the diffuser in the classroom and can solve problems with optimism. I am a supportive classmate and show compassion for others.

I have a lot of interests such as robotics, coding, recorder, badminton, drawing, flute and piano. I am currently doing the grade 5 test for piano and passed with an A+ for my previous test. I enjoy hobbies such as art and have recently won 5th place for a drawing competition. I have also performed recorder in the opera house and have also played flute in my previous school's band.

I will be able to attend many competitions and fundraisers as well as extra-curricular activities if I attend Plc. I will continue to try my best in all areas and can help other people out. I believe these qualities will contribute to the school. **excellently said!**

### Question 2

Leadership roles of mine include vice SRC and LACLA. In year 3 I was voted vice SRC. I had to go to meetings every wednesday and sacrifice my lunchtime but this experience taught me a lot about responsibility. At my new school Ashfield Public School, I am one of the LACLA monitors. LACLA stands for Let African Children Learn Association. LACLA can teach so much about respect and gratitude. These roles have taught me a lot about teamwork and empathy. To me helping others is more than just a small act of kindness, helping others is how you help yourself.

**It is good that you are aware of your strength and you know how to play your cards right! You were able to enumerate your qualities and justify these with examples and even included testimonies from others. That said, in question 2, you actually started strong but ended the paragraph with a much different note. You kind of strayed away from the topic which is about leadership roles. You have to revolve your idea around that. Nonetheless, I believe this was well-written. Good job!**

**Mark=47/50**
