

## Section 1:

#1 "One calm morning a farmer woke up from his good sleep to get ready because a school was coming on a day trip to the farm. Everything was going really smoothly and for the first time the farmer was excited, but there was something pandemonium waiting for him."

### Strengths:

- Effective scene-setting with time and location
- Creates anticipation with foreshadowing

Weaknesses: Word Choice Inconsistency The phrase "something pandemonium" is grammatically incorrect and disrupts the flow. "Good sleep" and "really smoothly" are overly simple descriptors that don't engage the reader.

Exemplar: "One peaceful morning, a farmer awoke, eager to prepare for the school excursion to his farm. Everything seemed perfect, but little did he know, chaos lurked around the corner."

#2 "The gargantuan carrots popped from the soil like shooting guns. Landing on the farmer. The humongous pumpkins erupted to cover every single thing in its way. All students and teachers were covered in pumpkins."

### Strengths:

- Vivid vocabulary choices ("gargantuan," "erupted")
- Dynamic action sequence

Weaknesses: Sentence Structure Fragmentation The sentence "Landing on the farmer" is incomplete. Multiple short sentences create a choppy rhythm rather than a smooth flow of action.

Exemplar: "The gargantuan carrots burst from the soil like missiles, raining down upon the startled farmer. Humongous pumpkins erupted everywhere, engulfing students and teachers alike."

#3 "After the chaos had finished the fairy returned. She dropped her jaws in sorrow as she saw what she had done. She felt really guilty and ashamed of herself."

### Strengths:

- Clear emotional development
- Shows character growth

Weaknesses: Show Don't Tell Your writing states emotions directly rather than demonstrating them through actions and descriptions. Phrases like "felt really guilty" tell rather than show the fairy's remorse.

Exemplar: "When the fairy returned, she gasped at the devastation before her. Her wings drooped as tears welled in her eyes, her magical wand trembling in her grasp."

Actionable Task: Rewrite the scene where the fairy discovers the chaos, focusing on showing her emotions through physical descriptions and actions rather than stating them directly. Include at least three specific details about her body language, movements, or facial expressions.

Overall Score: 42/50
