

Section 1:

#1: Opening scene (First paragraph) a. Strengths:

- Strong scene-setting with vivid details of the crowd's excitement
- Effective build-up of tension through the judges' arrival and announcement

b. Weaknesses: Run-on Sentences → Your opening paragraph contains several long sentences without proper punctuation. For instance: "People lining up, excited to see the new trucks filled with soft sweet tasting ice-cream in Sydney" lacks a main verb and proper structure.

c. Exemplar: "People lined up excitedly to see the new trucks filled with soft, sweet-tasting ice cream in Sydney."

#2: Ice cream creation scene a. Strengths:

- Detailed descriptions of both ice cream creations
- Good use of sensory details in describing the ingredients

b. Weaknesses: Pacing Issues → Your description rushes through the creation process, particularly evident in "Sydney Made a rainbow flavoured ice-cream with chocolate flakes tossed on to it, the quick drizzle of chocolate syrup and sprinkles sprinkled across the ice-cream."

c. Exemplar: "Sydney's team carefully crafted their rainbow-flavoured ice cream, methodically adding chocolate flakes, drizzling rich chocolate syrup, and finishing with a delicate sprinkle of toppings."

#3: Conclusion a. Strengths:

- Creative resolution with both teams winning
- Positive message about collaboration

b. Weaknesses: Abrupt Ending → Your conclusion jumps too quickly from the competition results to worldwide success without developing the transition. This is evident in "After the announcement, the popularity of both the trucks and ice-creams flavours have reached sky limits."

c. Exemplar: "Following the judges' announcement, the two teams' collaboration sparked a global sensation, with their unique fusion of Japanese artistry and Sydney's vibrant creativity becoming a worldwide phenomenon."

Actionable Task: Rewrite the ice cream creation scene, focusing on slowing down the pace by including step-by-step details of how each team creates their signature ice cream. Include at least three specific steps for each team's process.

Overall Score: 40/50
