

Section 1:

#1 (First paragraph) Strengths:

- Clear thesis statement introducing key arguments about UBI
- Effective topic sentence structure establishing main points

Weaknesses: Underdeveloped Introduction → Your opening lacks sufficient context and background about UBI before diving into claims. Your initial sentences jump quickly between different ideas without fully developing them. For instance, "UBI aids the poor people to have a living" would benefit from more specific explanation of how this occurs.

Exemplar: "Universal Basic Income (UBI) represents a transformative approach to addressing poverty and economic inequality in our modern society. This policy, which provides regular financial support to all citizens, offers several compelling benefits ranging from poverty reduction to entrepreneurial growth."

#2 (Second paragraph) Strengths:

- Vivid imagery creating emotional impact
- Creative use of metaphor to illustrate financial struggles

Weaknesses: Loose Paragraph Structure → Your narrative scene, while evocative, doesn't connect clearly to your main arguments. The transition from the kitchen scene to "evil robots" feels abrupt. Your concluding line "UBI lights a pathway in front" needs stronger connection to the preceding imagery.

Exemplar: "In countless homes, families struggle with mounting bills and financial pressure, their futures increasingly uncertain in an age of automation. UBI offers a practical solution, providing stability and dignity while allowing workers to adapt to our changing economy."

#3 (Fourth paragraph) Strengths:

- Clear focus on economic benefits
- Logical connection between UBI and business creation

Weaknesses: Limited Development → Your discussion of business creation lacks specific mechanisms. Your statement "this would be enough for that person to set up their own job" requires more detailed explanation of how UBI enables entrepreneurship.

Exemplar: "With a guaranteed basic income, individuals gain the financial security needed to pursue entrepreneurial ventures. This safety net reduces the risk of business creation, allowing

people to invest time and resources in developing new enterprises whilst maintaining basic living standards."

Actionable Task: Rewrite your second paragraph focusing specifically on connecting the descriptive kitchen scene to concrete benefits of UBI - show exactly how UBI would help the family in your scenario.

Overall Score: 41/50
