

Brazilian Carnival taking place in Mongolia

Host : Hello FM 321 fans, is Joshna Aso back again, today we will be discussing the recent Brazilian Carnival that is taking place in Mongolia! It is tonight at 7 pm when the festival starts we will be there showcasing all of you guys how it will be. Firstly let's welcome Paulo Carla! Mr. Carla is the host of the Carnival. Tell us Paulo, What are your thoughts about this?

Paulo : Thanks Joshna, I agree about what you said, but for people who think " Why does this dude need to be in our favourite show". Well, I actually also love FM 321, so I will be taking the radio camera with Joshna to Mongolia and we will reach just in time in Mongolia, so stay tuned because we are going to Mongolia!

Host : Awesome, so we have already planned it all up until then ZOOM.

Host : Yay! We are in Mongolia, me and Paulo are in the cab, waiting to get to our destination. We both are looking outside the windows as Paulo has also never been to Mongolia and only got an idea to do a Brazilian carnival here. (Car stopping at destination)

Paulo : We are here, it's 6:55 pm and everyone is on their way to the festival! We are kinda early but I've got some preparation jobs so you guys can look around the place.

Host : Amazing, we will be looking around. Do I see some fantastic colours in a few meters, let's go check it out! Ooooooh, It's a bunch of elegant dancers, let's see how graceful they actually are, because I think they are rehearsing for their big performance. As they danced flawlessly, I saw how they were wearing these cultural clothes, which looked amazing on them. Let's go interview one of the dancers after their rehearsal.

Dancer : Hello there, I saw you guys when we were dancing up there. We have a lot of dances to remember and we have to practice everyday so we don't mess up on the spot.

Host : Wow, that is a lot of work for one festival, but I can smell something delicious. What is that? Hmm, I'm going to go and see what is going on there! Until then, I'll be there at your performance though. Hey is that chef that's who we are looking for now! Yum, these foods look superb!

Chef : Oh hi, I see you have come to see my delicacies! I have been working as a chef for years and years. It is a pleasure to see other people happy eating my food. You will have to wait though since I have been ordered by Mr. Carla to let nobody eat this food until it is 7:00. Ooh, I see time is running fast, I better serve all the food now, you should go outside and see all the decorations.

Host : Thank you, and yes, we will be on our way to see the decorations! Let's go and see all the decorations! As I step outside my eyes burn from all those lighting but in a positive engaging way. I could see people dancing in joy, eating the food with ecstaticness, and finally the speech of the first Brazilian festival in Mongolia in 2025. As soon as midnight came, we all needed to sleep to wake up the next day so until then keep watching FM 321!
