

Section 1:

#1 First paragraph Strengths:

- Good use of specific details about the hotel's location and accessibility
- Clear establishment of the hotel's historical significance

Weaknesses: Disjointed flow and redundant information → Your opening contains awkward phrasing like "at the in the middle" and repeats information about being historical. The transition between ideas is abrupt, jumping from shopping to transport without smooth connections.

Exemplar: *The iconic Raffles Hotel, situated in the heart of Singapore's bustling business district, stands as a masterpiece of classic architecture that has been immaculately preserved since its establishment in 1887.*

#2 Second paragraph Strengths:

- Effective inclusion of notable guests adds credibility
- Good historical detail about the Japanese occupation

Weaknesses: Underdeveloped historical narrative → Your mention of the Japanese occupation feels rushed and lacks impact. The phrase "came out from the war technically fine" diminishes the historical significance of this period.

Exemplar: *During the Japanese occupation from 1942 to 1945, the hotel was renamed Syonan Ryokan, serving as a powerful reminder of Singapore's wartime experience before returning to its original glory under Allied forces.*

#3 Fourth paragraph Strengths:

- Shows enthusiasm about recommending the hotel
- Includes specific amenities like breakfast service

Weaknesses: Repetitive and informal tone → Your conclusion repeats phrases like "almighty" and uses informal expressions that don't suit a feature article. The phrase "Now you have an answer!" feels too casual.

Exemplar: *The Raffles Hotel stands as Singapore's crown jewel of hospitality, offering guests an unparalleled blend of historical grandeur and modern luxury across its 115 magnificent suites.*

■ Your feature article would benefit from more detailed descriptions of the guest experience. You could paint a more vivid picture of the hotel's atmosphere by describing specific spaces, like the famous Long Bar or the grand lobby. Your writing needs more structure - try organising your ideas into clear themes: history, famous guests, and modern amenities. Your piece also feels rushed and would be stronger with more depth about what makes staying at Raffles truly special.

Score: 38/50
