

Section 1:

#1 "morning swims in the clean clear water are fun as celebrating and drinking the finest whisky, where iconic writers find inspiration in the historical beauties of the literary lounge."

Strengths:

- Vivid sensory details that paint a picture of the hotel experience
- Creative connection between activities and literary inspiration

Weakness: Run-on sentence structure → Your sentence combines multiple ideas without proper punctuation or linking words. The phrase "are fun as celebrating" creates confusion in meaning. The connection between swimming, drinking whisky, and writers finding inspiration needs clearer organisation.

Exemplar: *The morning swims in the crystal-clear pool are as delightful as sipping the finest whisky in the evening. Meanwhile, iconic writers find inspiration amidst the historical beauty of the literary lounge.*

#2 "with white pilars reaching as high as the sky and flowers dance as the smell of a five michellin star food sliding through the mouths of young influencers taking a selfie."

Strengths:

- Engaging description of the hotel's architecture
- Modern perspective with mention of influencers

Weakness: Fragmented sentence structure → Your sentence lacks a main subject and verb. The description jumps between different elements (pillars, flowers, food, influencers) without proper connection. The metaphor of food "sliding through mouths" needs refinement.

Exemplar: *The white pillars reach majestically towards the sky, while flowers dance in the breeze. The aroma of five-Michelin-star cuisine wafts through the air as young influencers capture their memorable dining experiences.*

#3 "This is why Raffles hotel is luxurious and has a historical legacy."

Strengths:

- Clear concluding statement

- Links back to main argument

Weakness: Underdeveloped conclusion → Your conclusion is too brief and doesn't effectively summarise the key points discussed. It doesn't reinforce how the hotel maintains both luxury and historical legacy, which was your main argument.

Exemplar: *Through its blend of modern luxuries and carefully preserved heritage, Raffles Hotel stands as a testament to Singapore's ability to honour its past while embracing the present.*

■ Your feature article would benefit from more specific examples about how Raffles Hotel maintains its historical legacy. You've touched on luxury aspects but could expand on historical elements like significant events or famous guests. Try to balance your descriptions between modern amenities and historical features. Your writing needs more structure with clear paragraphs and proper transitions between ideas.

Score: 36/50
