

Writing Feedback

DAY 3 - Year 6 Reading & Writing Summer Holiday Week 6 Zoom Booster

Section 1:

#1 "I found myself in a mysterious Enchanted , forest with creatures unknown in earth there where 1 in a lot , they where very dangerous and treacherous" Strengths:

- Creates an intriguing opening that draws readers into the mysterious setting
- Establishes tension through describing dangerous creatures

Weakness: Run-on sentences and unclear descriptions → Your sentences run together without proper punctuation, making it hard to follow your adventure. You've written "where" instead of "were" multiple times, and your description of the creatures is vague when you write "1 in a lot."

Exemplar: ***I found myself in a mysterious Enchanted Forest, filled with creatures unknown to Earth. These beings were numerous, dangerous and treacherous.***

#2 "there was a mystical fountain made with gold and emerald, green water there where flying tigers with sea leopards" Strengths:

- Includes vivid magical elements like the fountain
- Combines different creatures creatively

Weakness: Limited descriptive details → Your description jumps quickly between different magical elements without painting a clear picture. You mention a golden fountain but don't tell us how it made you feel or what made it special.

Exemplar: ***Before me stood a mystical fountain crafted from pure gold, its emerald waters gleaming in the forest light. Above it, magnificent flying tigers soared alongside graceful sea leopards, their movements mesmerising.***

#3 "with a big valuable ancient mythical Diamond relic worth billions when I came back I was rich" Strengths:

- Provides an exciting conclusion to the adventure
- Includes a magical treasure element

Weakness: Rushed ending → Your ending feels hurried and doesn't share your feelings about finding such an amazing treasure. You don't describe the diamond relic or explain how you felt becoming rich.

Exemplar: ***Within the temple, I discovered an ancient mythical diamond relic, its surface gleaming with otherworldly power. When I returned home, its incredible value made me wealthy beyond my wildest dreams, but the true treasure was the magical journey itself.***

■ Your diary entry shows wonderful imagination with magical creatures and an enchanted setting. However, you need to slow down and share more of your thoughts and feelings throughout the journey. Try to describe what you saw, heard, and felt in more detail. Add more information about how the forest affected you personally as an explorer.

Your task: Rewrite your diary entry focusing specifically on your emotional reactions and sensory details for each magical encounter in the forest.

Score: 39/50

Section 2:

Dear Diary

~~#1 I found myself in a mysterious Enchanted , forest with creatures unknown in earth there where I in a lot , they where very dangerous and treacherous~~ [I found myself in a mysterious Enchanted Forest with creatures unknown to Earth. In great numbers they roamed, very dangerous and treacherous.]
