

Section 1:

#1: "I walked to the front of the animal sanctuary's gleaming copper gates and pushed them open. When I skipped inside, I found myself surrounded with hungry, eager animals staring at me."

Strengths:

- Your use of vivid sensory details with "gleaming copper gates" creates a strong visual image
- Your dynamic verbs "skipped" and "surrounded" effectively convey movement and atmosphere

Weaknesses: Structural Flow → Your opening sentences would benefit from stronger cohesion between actions. You jump from walking to skipping without a smooth transition. The phrase "found myself surrounded" feels abrupt after the initial entrance.

Exemplar: "I approached the animal sanctuary's gleaming copper gates and pushed them open. As I stepped inside, hungry, eager animals gathered around me, their eyes fixed intently on my presence."

#2: "When I skipped inside, I found myself surrounded with hungry, eager animals staring at me. As I went to get some food, the sudden smell of hay drifted into me."

Strengths:

- Your incorporation of multiple senses (sight and smell) enriches the scene
- Your creation of anticipation through the animals' eagerness is engaging

Weaknesses: Preposition Usage → Your phrasing "surrounded with" and "drifted into me" creates awkward imagery. The prepositions don't align naturally with the actions being described.

Exemplar: "As I ventured inside, I found myself surrounded by hungry, eager animals watching my every move. While I went to fetch some food, the sudden smell of hay wafted through the air."

#3: "After lunch, I felt the sweat running down my neck as I combed the manes & tails of 6 different horses (half a hour). I also spent 20 mins giving a Labrador called Bella a bath."

Strengths:

- Your inclusion of specific details about time management adds authenticity
- Your description of physical sensation creates immersion

Weaknesses: Symbol Usage → Your use of ampersands and numerals disrupts the narrative flow. The parenthetical time reference breaks the immersive quality of your description.

Exemplar: "After lunch, I felt sweat running down my neck as I combed the manes and tails of six different horses for half an hour. Then I spent twenty minutes giving a Labrador named Bella a bath."

Actionable Task: Rewrite your piece focusing on smooth transitions between actions. For each scene change, ensure you connect the previous action to the next using linking phrases or sensory bridges.

Score: 37/50

Section 2:

#1 I walked to the front of the animal sanctuary's gleaming copper gates and pushed them open. ~~When I skipped inside, I found myself surrounded with~~ [As I stepped inside, I found myself surrounded by] hungry, eager animals staring at me. ~~As I went to get some food~~ [While I went to fetch some food], the sudden smell of hay ~~drifted into me~~ [wafted around me]. Then, I carefully picked up the right treats for the right animals ~~bd~~ [and] started to feed.

#2 I spent most of my morning cleaning the hamster cages so they soon felt like smooth silk. ~~After lunch, I felt the sweat running down my neck as I combed the manes & tails of 6 different horses (half a hour)~~ [After lunch, I felt sweat running down my neck as I combed the manes and tails of six different horses for half an hour].

#3 ~~I also spent 20 mins~~ [I also spent twenty minutes] giving a Labrador called Bella a bath. Bella's tail tickled me so much, I could not stop giggling. What a crazy afternoon! It was nearly time to go home. I spent the last ~~few mins~~ [few minutes] patting some fluffy animals. I left at 5:00 ~~&~~ [and] I could not help grinning at the citrine yellow sun.
