

Woosh! Do you want a fun ^{educational} ~~educat~~ ^{educational} place to go? Then we should go to the ^{Aquarium} ~~Aquarium~~. The ^{Aquarium} ~~Aquarium~~ has lots of activities like touch see hear feel. We can also learn about how some sea animals have evolved from the ^{dinosaurs} ~~dinosaurs~~. Or why ^{turtles} ~~turtles~~ have shells.

If we go on a school day there will be less people as they are at work or school. Then if ~~R~~ kids get lost it will be safer and easier to find them. Or we could get an ^{opportunity} ~~opportunity~~ to feed the penguins or go on a boat with a clear bottom.

We could also watch a 4D

Movie about the start of a penguin's life and what happens what predators there are or how they learn to swim. And when they shed their fluff into warm cozy feathers. Seeing how they survive when the adults leave them on the cold icy antarctica ices and how they cope with global warming.

Or hop on to a clear bottom boat while listening to a ^{tour} on the sea animal spaces or if it is in danger. ~~not to forget~~ why and how they are at the aquarium. not to forget the fresh and salt water crocodiles, I wonder how big these croks can get. next paragraph

I strongly believe that we should
go to the ^{aquarium} aquarium. Why do we go
to school? To learn and if we go to
the aquarium then we won't be wasting
all that ^{precious} precious learning time that
^{parents} our parents paid for.
