

### Section 1:

#1 "Boom! As the canon fired at me. The three man with shiny bagles and old fasion cloths with five big letters on it. POLICE."

**Strengths:** Your opening creates immediate action and grabs the reader's attention. You've chosen an exciting starting point that makes us want to know what happens next.

**Weakness: Sentence fragments** → Your writing has several incomplete sentences that don't express full thoughts. "As the canon fired at me" and "The three man with shiny bagles" are not complete sentences because they're missing important parts. Complete sentences need both a subject and a verb that work together to make sense.

**Exemplar:** *The cannon fired at me as I ran. Three men wearing shiny badges and old-fashioned clothes chased me, with the word POLICE written in big letters.*

#2 "My ring in my pocket felt mad and more hard ripping off my pocket. And the a bullet shot at me through my jacket."

**Strengths:** You're trying to show how scared your character feels by describing the ring. This helps us understand the character's emotions during this scary moment.

**Weakness: Unclear meaning** → Some of your sentences are confusing because the words don't fit together properly. "Felt mad and more hard ripping off my pocket" doesn't make clear sense, and readers can't picture what's actually happening to the ring or why it feels this way.

**Exemplar:** *My ring felt heavy in my pocket, pressing against my leg as I ran. A bullet tore through my jacket.*

#3 "My body was frozen like ice bumped on my body. The frozen cold wind roared thorough my body like a wolf chasing me on a endless forest."

**Strengths:** You're using comparisons to help readers understand how cold and scared your character feels. Comparing the wind to a wolf is creative and shows good imagination.

**Weakness: Awkward sentence structure** → Your sentences are hard to follow because the word order is mixed up. "Like ice bumped on my body" and "roared thorough my body like a wolf" don't flow smoothly, making it difficult for readers to understand your ideas clearly.

**Exemplar:** *My body felt frozen, as if ice had formed all over my skin. The cold wind roared through the trees like a wolf howling in an endless forest.*

■ Your piece shows good creativity and excitement, but the writing needs clearer sentences to help readers follow your story better. The main problem is that many sentences are incomplete or have words in the wrong order, which makes your ideas hard to understand. Additionally, there are many spelling mistakes that distract from your exciting story. You can improve by making sure each sentence has a clear subject and verb. Also, try reading your sentences out loud to check if they sound right. Furthermore, you should check your spelling more carefully, especially for common words like "through" and "fashion." Your story has great action and suspense, but clearer writing will help readers enjoy it more. Moreover, you can make your descriptions stronger by using simpler, clearer comparisons. Finally, remember to end each complete thought with proper punctuation to help readers follow along.

---

**Overall Score: 38/50**
